

Meritor Parts

Meritor Parts - The Meritor Business is a leading international supplier established upon one hundred years of tradition of quality and service. Meritor focuses on integrated systems with different modules and components to the original machinery makers and aftermarket equipment within the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage in the worldwide operations. The business values their customers and would like to ensure their success while anticipating their various requirements. Meritor begins with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation among a team of experienced experts.

Meritor strongly believes in just hiring future focused employees. These top-caliber individuals can quickly adapt to changing surroundings and freely demonstrate the level of performance and commitment considered necessary to be able to obtain results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers their workers various opportunities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This includes drivelines, axles, suspension and braking systems intended for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the needs of all their international engineering employees.

Meritor's customer focused and dynamic Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located around the world in 19 nations and in 5 different continents.

The supplier development network is particularly located to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based approach to decision making within every part of the business. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business processes and implement lean methods.
