

Rockwell Part

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to exceed and meet their clients' expectations for technology, delivery, quality and service. They believe in working within an atmosphere that encourages the highest integrity with empowered teamwork, combined with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and providing a safe environment for their staff to work in. What's more, they have applied lots of programs within the corporation to be able to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whatever questions or comments, since they are glad to share and promote this policy with a greater knowledge of their efforts. They are extremely devoted to preserving and improving the natural environment. AxleTech has an EHS program which not only protects the natural environment but which even actively protects their staff and neighbors too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in designing and manufacturing planetary axles used for both commercial and military applications. These applications range from airport ground support to construction equipment. AxleTech particularly designs axles to be able to meet specific application demands. They have over 1000 various axle specs within their existing offering. With over 100+ years of history and skill, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in numerous commercial and military applications. They offer complete axle assemblies used for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details which can be seen in the "ISAS" product selection.
