

## Clark Forklift Parts

Clark Forklift Parts - Currently, there are at least 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 operating in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with components covering more than 120,000 specific components for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark features a exceptional Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Globally, Clark has one of the most amazing dealer support networks. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

Clark proudly remains an innovative leader of the material handling industry, pioneering safety features such as the operator restraint system. This exceptional dedication to safety is currently a customary feature on every lift truck.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their manufacturing plants. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a dominant industry position.

Clark has chosen the system of "Lean Production" at all of its assembly facilities for the reason that this method is extremely economical and enables minimal use of resources. Established to ensure maximum proficiency, this system is designed to discover and acknowledge the most effective ways for production facility stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The new value engineering agenda combines innovative product improvement and offers improved customer support and service within the industry.
